THURSDAY, OCTOBER 8, 1891.

It is reported from the Cherokee Strip that hundreds of families that failed to get claims in the land opened last week are settling on the Strip. They are constructing dwellings and making preparations to spend the winter.

It is announced that Turkish troops in the province of Yemen, Arabia, after several battles with insurgents, recaptured Sana, the principal city of the province, and that the leading chiefs have submitted to the Turkish authorities. The revolt in Yemen is now ended.

THE St. Petersburg correspondent of the London Standard confirms the reports of distress in Russia. He says 25,000,000 people are unable to pay their taxes, and this will cause a budget deficit of £12,000,000. The minister of finance has granted another 1,000,000 roubles for the relief of the distressed people.

AUSTRALIA deserves applause. Her people refused to go and see the brutal pugilist, John L. Sullivan, disgracing the dramatic profession by making believe to be an actor. The Australians are fond of sport, but they have too much self respect to run after a creature like the wife-beater Sullivan. It is to be hoped that the pecuniary embarrassment the pugilist is now suffering from will continue indefinitely, and that he will never be able to raise enough money to pay his passage back to America.

LIEUT. FRED A. OBER, one of the Special World's Fair Commissioners to South America, has written that he has secured in San Domingo photographs of the bones alleged to be those of Christopher Columbus. He is inclined to question that the remains are genuine. He also had made a fac-simile of the historic cross of one of the cathedrals in that city from material that was put in the building in 1514. These and many other relics he will bring to the Exposition.

By a royal decree, communicated to the Governor-General of Cuba by the Colonial Minister of Madrid, the privileges granted the United States by the last reciprocal commercial arrangement between the United States and Spain shall also be granted to all nations which, in their treaties with Spain, have the clause of the most favored nation, as long as said treaties are in operation. After the 1st of July, 1892, only the United States will enjoy the privileges under the arrangement.

DISPATCHES from the Northwest would appear to indicate a dangerous period of drought and almost an epidemic of prairie fires. The reports proceed largely from North Dakota and South Dakota, although dispatches from Illinois, Wisconsin and Iowa are far from reassuring. Much more credence might be given the stories had not the country had the experience of former years by which to profit. The wheat of the wheat speculator are usually exercised about this time of the year in "destroying" crops by telegraph.

THE expected has occurred in the case of Argentina. After vain attempts to fill her obligations the republic has finally been compelled to repudiate. Gold payments have been suspended for a period of two years, and the English bondholders will have to whistle for their interest. Argentina affords an excellent illustration of the fallacy of the gold monometallic idea that legislation can seriously influence the holdings of metals by a country. If declaring in favor of gold would have accomplished anything the Argentinians would certainly have resorted to it, but poor as their financing has been they were never silly enough to imagine that a country could get and hold gold except by producing it or buying it with other commodities.

A RAY of light has just been thrown on the present revolution in Guatemala by a retired American officer. According to the story he tells, three Americans, supplied with plenty of money, visited St. Louis about two months ago. To him they disclosed the fact that they represented a revolutionary party in New York that had for its object the downfall of the Barillas Government in Guatemala, and who were backed up with funds to carry the movement to a successful issue. The plan of action was to send experienced military officers into Guatemala, they to be distributed throughout the republic, and when the time was ripe were to take command of the revolutionary troops. He believes the present revolution due to New York parties, who furnished the funds and ammunition to the insurgents.

THE CORONADO SUN has entered on its ninth volume. It is well edited and printed, and we hope to see so much patronage during this year that the "patent" part will be flung aside—Rodlands, Cal., Citograph.

NEGOTIATIONS looking to an agreement upon the reciprocity treaty between the United States and Mexico are in active progress in the City of Mexico between the special commissioner appointed by the Mexican Government and United States Minister Ryan.

MELBOURNE has given up his rain-making experiments at Goodland, Kas., for the present. He is not satisfied with his tests, and will wait until the winds have fallen and the clouds, which are credited as his making, have cleared away before making a new test. Melbourne is satisfied that a rain can not be precipitated while the wind maintains such a high velocity—forty miles an hour. Since the experiments began it has rained all around Goodland, the heaviest fall being north and east, in which directions the wind would naturally have carried it. Whether there is anything in the experiments of Melbourne or not, he has convinced the majority of the people of that section that he holds the possible solution for drought breaking, and before he leaves Goodland his method will be given a thorough test.

GRAND CANYON MINES.

A Company of Denver Capitalists Formed to Develop Them.

The Colorado Grand Canyon Mining and Improvement Company is the title of a recently organized company, incorporated under the laws of the state of Colorado, with a capital stock of \$500,000, with A. McKnight, A. H. Garfield, Franklin Morey, A. J. Gregory, Elmer Kane, H. B. Illius and J. S. Best as incorporators. The objects for which the said corporation is formed is to acquire by purchase or otherwise mines and mining properties, and to work, tunnel and develop the same, and to provide and erect the necessary buildings, machinery and appliances therefor; and to construct, own and operate toll roads in the Territories of Arizona and Utah, and to own and operate ferries across the Colorado river, own boats, etc., and charge toll for the use of the same. The principal office of the company is to be in Denver, Colorado.

The articles of incorporation, certified to by the Secretary of the State of Colorado, were filed with Recorder Bush for record on Monday last, together with a resolution of the Board of Directors of the company constituting Fred U. Bunker, of Flagstaff, their authorized agent in for the county of Coconino, Territory of Arizona.

Should this company go ahead and take such steps as is proposed in its articles of incorporation, the benefit that Flagstaff must derive cannot be overestimated. The fact that rich mines exist in the depths of the Grand Canyon is beyond doubt, and the sooner some company of capitalists commence working them, that much sooner will a railroad be constructed from Flagstaff to the Canyon. It is stated that the incorporators of the Colorado Grand Canyon Mining and Improvement Company are men of means, and that ere another year passes active work will be well under way.

AN IMPORTANT BILL.

The Royal Baking Powder Company, Inc., N. Y. Legislature.

[New York Press.] Last Monday Mr. Kelly introduced the following bill by the assembly. A careful reading of it will show that it is a very important one.

AN ACT to prevent the use of poisonous and injurious ingredients in baking powders.

WHEREAS, Baking Powders manufactured in this state, known as the "ROYAL" alum and other Baking Powders are advertised for sale as absolutely pure; and

WHEREAS, Official examination show them to contain ammonia and other injurious ingredients; therefore THE PEOPLE OF THE STATE OF NEW YORK, represented in Senate and Assembly, do enact as follows:

Section 1. Every can or package of baking powder containing ammonia offered for sale in this State shall have a conspicuous label thereon with the words "Contains Ammonia" printed thereon in plain type, not smaller than great primer, and any person who shall sell, or have or offer for sale, any such can or package of baking powder without such label thereon, shall be guilty of misdemeanor.

Section 2.—This act shall take effect July 1, 1891.

BOARD OF SUPERVISORS.

Contract for New Jail Awarded—Report of the Treasurer—Bills.

At the regular meeting of the Board of Supervisors on Monday last Chairman Cornish and Supervisor Boyce were present.

The report of J. A. Lampert, County Surveyor, and Ed. Gale and T. E. Pulliam, who were appointed to view road through Wm. Carroll's land, was read and rejected, and a new committee, consisting of Edgar Whipple and Ed. Gale, were appointed to assist the County Surveyor in locating a more practicable route south of said William Carroll's land.

It was ordered that Road District No. 4 be and is hereby changed, according to a petition filed with the Board by James Price. The Clerk was instructed to notify the overseer of said district of the change, and to send him a description of the same.

Ordered that all stationery, printing or office material charged to Coconino county in future shall be obtained by any officer in said county by a requisition on the clerk of the Board of Supervisors, and all bills for such material presented to the Board for allowance, shall be accompanied by his written order.

Cuts were opened for the building of a County Jail in Flagstaff. The bid of R. L. West being \$2,350, which was the lowest bid, was accepted, and the clerk was instructed to notify Mr. West to file a bond within 48 hours from 9 o'clock a. m. October 6, 1891, in the sum of \$4,700, for the approval of the Board, otherwise his bid to be void.

The report of County Treasurer George Babbitt, for the quarter ending October 1, 1891, was read and placed on file. The report is as follows:

Deafness Can't be Cured

By local applications, as they cannot reach the diseased part of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running ear, or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of Deafness caused by catarrh that we can not cure by taking Hall's Catarrh Cure. Send for circular.

PROTECT OUR BREAD.

The machinery of the law has not been put to work too speedily against the fraudulent use of ammonia and alum in Baking Powders. Both health and the pocket of the people are demanding protection. The legislatures of New York, Illinois and Minnesota have taken this matter of adulteration up, and especially that of Baking Powders. It will be in the interest of public health when their sale is made a misdemeanor in every State in the UNION, and the penalties of the law are rigidly enforced. There is no article of human food more wickedly adulterated than that of Baking Powder.

Dr. Price's Cream Baking Powder is the only pure cream of tartar powder having a general sale that is free from ammonia, alum or taint of any kind of impurity. It makes the sweetest and lightest bread, biscuit and cake that are perfectly digestible whether hot or cold. It costs more to manufacture Dr. Price's than any other baking powder. It is superior to every other known and the standard for forty years.

Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact, the purity of this ideal powder has never been questioned.

MINISTERS IN SESSION.

Tenth Annual Meeting of the Arizona Mission Conference.

The tenth annual session of the Arizona Mission Conference of the Methodist Episcopal Church convened in the Methodist church at this place last evening, the opening sermon being delivered by Rev. C. P. Wilson, of Tempe. This morning at 9 o'clock the services of the Lord's Supper were administered, followed by conference business, and at 7:30 this evening will be the Anniversary of Freedmen's Aid and Southern Educational Society.

The remainder of the program as arranged will be carried out as follows: Friday—9 a. m., conference business; 7:30 p. m., Anniversary Church Extension Society, address by Rev. C. F. Spray, of Prescott.

Saturday—9 a. m., conference business; 7:30 p. m., Temperance Anniversary, addresses by Rev. J. A. Crouch, of Gila Bend, and Rev. C. L. Bovard, of Tucson.

Sunday—9 a. m., Conference Love Feast, led by Rev. N. L. Guthrie, of Wilcox; 10:30 a. m., sermon by Bishop W. E. Mallon; 3 p. m., anniversary of Sunday School Union, address by Rev. F. W. Downs, of Tombstone; 7:30 p. m., Missionary Anniversary, addresses by Rev. G. L. Pearson, of Phoenix, and Bishop Mallon.

Rev. J. H. Gill, of Globe, is unable to be present, owing to ill health.

Mystery.

How the human system ever recovers from the bad effects of the nauseous medicines often literally poured into it for the supposed relief of dyspepsia, liver complaint, constipation, rheumatism and other ailments, is a mystery. The medicine done by bad medicines is scarcely less than that caused by disease. If they who are weak, bilious, dyspeptic, constipated or rheumatic, would often be guided by the experience of inveterate stomach bitters, they would in every instance obtain the speediest and derivable from rational medication. This medicine is a searching and at the same time a thoroughly safe remedy, derived from vegetable sources, and possessing, in consequence of its basis of pure spirits, properties as a medicinal stimulant not to be found in the fiery local bitters often resorted to by the debilitated, dyspeptic and languid.

From the Phoenix "Herald."

The following is the report of the committee in Phoenix on the performance given by Grace Eden, the Georgia wonder, who will give a performance at the opera house here next Wednesday evening.

We, the undersigned, were present last evening to witness and investigate the phenomenal "power of force" claimed for Grace Eden, the Georgia magnet. We unhesitatingly vouch for her as being the most inexplicable and mysterious phenomenon we ever saw, presenting all the incredible feats advertised and much more, and in such a manner as to preclude all possibility of any sort of trickery. They are simply astounding. We heartily endorse her and advise all lovers of the supernatural, students of science and seekers of amusement to see her tonight. Nothing approximating it has ever been seen before. Her exhibition is clean, refined and elevating. We especially recommend it to the ladies, clergy and all. Col. J. F. Wilson, E. M. Mills, S. O. Israel, Capt. J. W. Crenshaw, R. Allyn Lewis, M. B. Fleishman.

Farmers are busy sowing their winter wheat.

Mrs. Harry Fulton left yesterday for a visit to friends in Baltimore, Maryland.

J. R. Boner, of Mohave county, stopped off in Flagstaff yesterday, on his way home from Kansas City, where he had been with a consignment of beef cattle.

Regular services of the Presbyterian church will be held at Masonic hall Sunday morning and evening. The installation of Robert Coulman as pastor will be given Tuesday evening. All cordially invited.

F. E. Nelson, who has been connected with the A. & P. railway as superintendent of bridges and buildings, has resigned, and will accept a similar position on the San Antonio & Arkansas Pass railroad, in Texas.

An effort is being made to have Judge Wells hold a special term of court here. The jail is only one in name, and the prisoners can cut their way out with an ordinary pocket knife. There are six prisoners in jail held for burglary.

BORN.—In Flagstaff, October 6, 1891, to the wife of Charles Downs, a son.

Lockett Brothers this week shipped their fall clip of wool, 55,000 pounds, to Boston.

Dr. J. M. Marshall, the dentist, leaves for Kingman next Sunday on professional business.

The new addition to the rear of George Babbitt's residence on Lereaux street is about completed.

Mrs. W. A. Daze, of Winslow, who has been visiting Mrs. S. F. Elliott the past week, returned to her home yesterday.

E. E. Ellinwood is having a handsome frame cottage erected in the north end of town, to be occupied by himself and family as a residence.

The brick and stone work on the new Babbitt building was completed yesterday, and workmen are now making all haste possible to get the roofing on.

G. W. Roope, of Boston, E. McAdams, of San Francisco, and A. Vandewort, of Trinidad, Col., are guests at the Bank hotel. These gentlemen all represent wool buyers, and are here in the interests of their firms.

Flagstaff Lodge, I. O. G. T., will give a free entertainment at their hall, in the Kilpatrick building, on Friday evening, October 16. An interesting program is being arranged, and a cordial invitation is extended to all to be present.

Mrs. P. C. Adams and daughter, of New York, visited Flagstaff this week. These ladies came to visit the Grand Canyon of the Colorado, but finding the weather unfavorable for the trip, contented themselves with visiting the cave and cliff dwellers. They left for California Monday.

The stone foundation for a residence for J. A. Vail is being laid on the lots north adjoining George Babbitt's property on Lereaux street. The building is to be a two-story frame, and will contain nine rooms, with all modern conveniences. In architecture it will be one of the handsomest structures in Flagstaff.

Dr. A. C. Rhoades, of New York, accompanied by his sister, Miss Rhoades, arrived in Flagstaff Tuesday, to visit his son, John V. Rhoades, general manager of the Arizona Cattle Company. Dr. Rhoades is one of New York's most prominent citizens, and will spend some time visiting the wonders of Coconino county.

Word was received in Flagstaff this week of the death during the latter part of September of Walter Scott, aged 23, a stock man of Camp Verde. Mr. Scott died of typhoid pneumonia, and his father, David Scott, is now very low with the same disease. Walter Scott was a nephew of R. J. Gray, a former well-known Flagstaff business man.

Grace Eden at the opera house last night drew a fair sized house. Several Tucson strong men matched strength with the 96-pounder and were worsted. Blacksmith Sherwood, a Tucson man of muscle, tried to lift her from the floor but found her too heavy. Interesting tests of mind reading were also given. The audience was generally pleased and rather mystified with the performance.—Tucson Citizen.

Frank Ready, a young man who was on his way from Colorado to work for the Arizona Lumber Company at this place, accidentally killed himself at Winslow last Friday night. A revolver which he was carrying fell to the ground, striking on a rail, thereby being exploded. The weapon was a large 5-caliber Colt, and the bullet went through the unfortunate young man's left lung. Death did not relieve him of his sufferings until the following day. Ready was carrying his revolver in his waist band, and it fell out when he was stooping over it fell out. Deceased was originally from Winchester, Indiana, where his parents reside.

WASHINGTON LETTER.

[From our Regular Correspondent.] WASHINGTON, Oct. 5, 1891.

The effect that small things have upon large ones was never more strikingly exemplified than by the report of Major Pollock, the Superintendent of the free mail delivery system, who has just returned from an examination tour of the principal free delivery offices in the West. Maj. Pollock says that the recent abolition of the custom of compelling carriers to count every piece of mail received, and dispatched from postoffices, will result in a saving to the Government of about \$300,000 a year, and on account of the time saved by the carriers it does away with any immediate need of largely increasing the carrier force in all sections of the country, as was expected some time ago would have to be done.
